Report on Field Visit to Agriculture College, Malegaon

Date: 27th April 2023

One day Field visit to Agriculture College at H. H. Shri. Murlidharan Swamiji College of Agriculture, Malegaon was organized by the Department of Zoology, Mahilaratna Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon Camp Dist. Nashik, to upgrade the knowledge of students regarding new and improved varieties of crops, Poly-House, Dairy Science, Goat farm, Poultry Science, Fishery Science and knowledge about Pesticide Free farming.

The Field Visit was observed under the guidance of Prof. N.S.Desale Head, Department of Zoology, M.P.H. Mahila College and faculty Members Dr. T.A. Sontakke, Prof. Shital J Salunke, Prof. Sara Hamdani along with the supporting staff Mrs. Kavita Patil accompanied the students of B.Sc, I, II, and III Year. The students had a very enriched experience as they were exposed to new and improved varieties of crops, fruits, vegetables, flowers and also different plant pathogens and harmful insects which greatly impairs the productivity of various crops. They were also introduced to the agricultural machineries for spraying of chemicals or pesticides in order to control

plant diseases, insects, weeds and other pests which enhanced their knowledge regarding modern machineries.

Students got an insight about the concept of natural farming, Smart Farming and Integrated Farming System and new technologies and practices for encouraging such type of farming. Natural Farming is a chemical free, traditional farming method and considered as an agro-ecology based diversified farming system which integrates crops, trees and livestock with functional biodiversity. It is the best farming method for environmental protection and human health and improves the quality of the land and the income of the farmers.

Students were exposed to various type of biofertilizers, vermicompost Unit and organic manures which can be used along with chemical fertilizers and thus, can reduce greater dependency on chemical fertilizers. At the same time, organic manures play an important role in improving soil quality and ultimately enhancing crop productivity.

At last, students were given a complete tour of the Agriculture college and the experimental farms which made them more aware of the research work going on currently in various fields of agriculture.

REPORT ON AGRICULTURE COLLEGE VISIT

Date :18/02/2018

On 13 Feb. 2017, Department of Zoology organized one day visit for F.Y , S.Y.B.Sc and T.Y.B.Sc Students at Agriculture college, Malegaon. All the Staff members of Zoology Department Smt. Desale N.S., Prof. G.K.Pawar and Miss. Pranali Wagh are present along with the students. In this visit Mr. Bachkar, Mrs. Bagal Madam, Mrs. Chavan Madam and her team demonstrated various activities of the dairy laboratory, Entomology , Laboratory, Poultry.

The visit was aimed at imparting the real life perspective and experiential learning in the presence of the experienced practitioners. The importance of visits to laboratories to help the students in connecting the theoretical concepts to the practical applications which will help them in integrating the knowledge, skills and competencies acquired by the students during their tenure at College.

In this visit students get information about various fields and gain there. The students interacted with Staff of College in very informal environment Farm, Goat Farm, Vermicompost unit etc. Students from F.Y, S.Y, and T.Y. B.Sc. joined for the visit under the guidance of Prof. N.S. Desale and Prof. G.K. Pawar and Miss Pranali wagh.
