Best Practice

Poster Presentation

Purpose of Poster Presentation:

- how to summarize, organize and explain your work clearly and rapidly
- Draw the audience with appealing design, figures, graphs and illustrations.
- To obtain feedback for further writing up

Objectives of Poster Presentation:

- Understand the techniques and aesthetics behind an effective poster presentation.
- To help the student to improve the mathematical understanding of her environment and correlate mathematics to life and various fields of Science.
- Identify use of poster as a visual communication tool that convey information in a easy way to large group of people

Outcomes of Poster Presentation:

- It gives a chance to student have a better way of understanding or interpreting information
- Interacting with the audience, dealing with questions and remarks.
- To build up self confidence.
- To develop skills such as analyzing data, seeking evidence, recognizing patterns every day and also correlate mathematics to other fields.

Department of Mathematics

Academic Year 2017-18

Report of Poster Presentation

Date: 05.02.2018

Department of mathematics organized a Poster presentation on “Application of Mathematics and Statistics in Various fields” to T.Y.B.Sc. students dated 3rd February 2018.

The main goal of this activity is to provide an opportunity for students to practice giving a poster presentation. This is a basic ability needed in academia, as posters are one of the main formats in which research is presented. The poster session is also a good chance for networking inside the college. The goal of a math presentation is to inform an audience about specific topics. The ten topics were distributed to pair of students which included Role of mathematics in Architecture, Application of mathematics in Nature, Fun of mathematics in Music, Mathematical Modeling in Climatology etc. Final year students searched the information from various website, collected articles and research paper from journals and prepare very nice projects on given topic.

Smt. Shubhada Joshi, Saima Firdaus and Dr. Pradnya Survase guided the students.

Prof. Meenakshi Wasadikar observing Posters, with Principal Dr. U.S. Deore ,
Co-ordinator Smt S. R .Joshi

Hon'ble Mr B.K. Deore, vice president of MGV with Prof Meenakshi Wasadikar,
Dr. P. A .Survase observing posters

Prof. Nimborkar and Prof Meenakshi Wasadikar (B.A.M.U., Aurangabad),
Dr. V.R. Nikam (Arts, Science and Commerce a College, Nampur) observing poster

Academic Year 2020-21

Report of Poster Presentation

Date: 02.03.2021

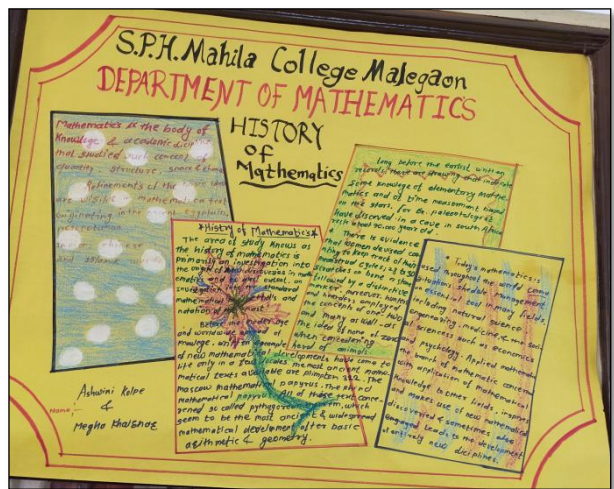

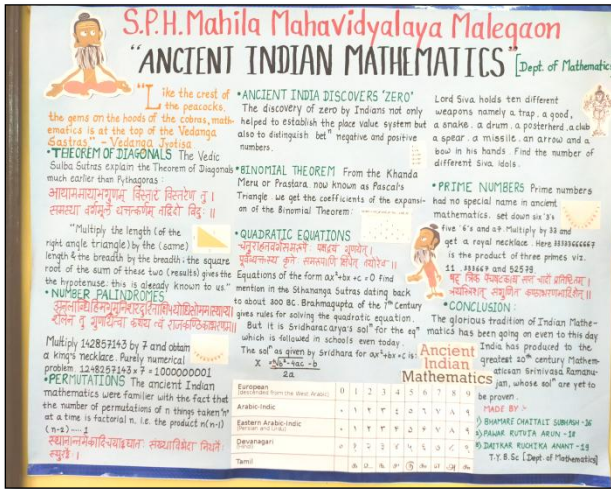

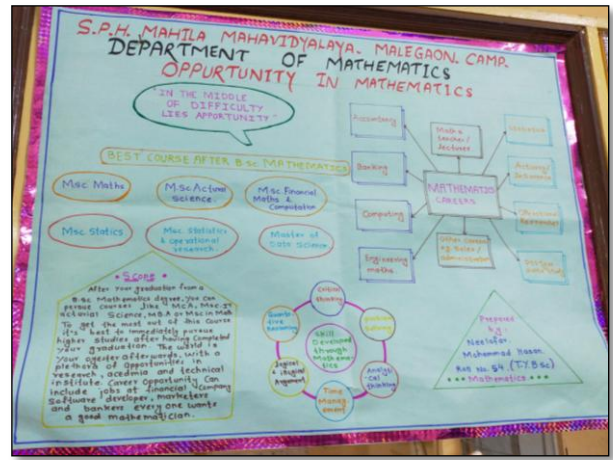

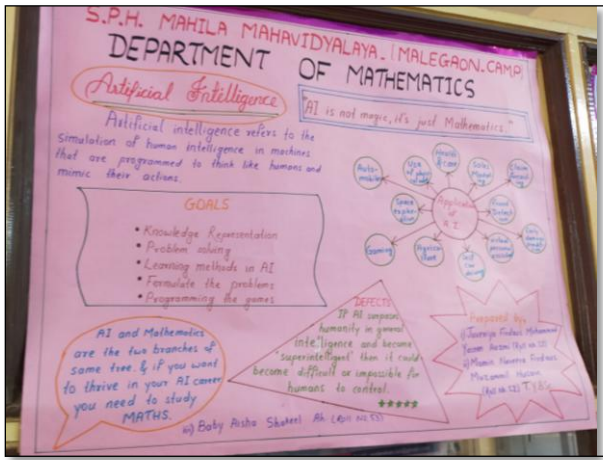

Department of mathematics organized a Poster presentation on the occasion of “National Science Day” dated 28th February 2021. Department formed Six pairs of the T.Y.B.Sc. students and each pair was assigned a particular topic from Ancient and Modern Mathematics like history of mathematics, Ancient Indian Mathematics, History of Pi and zero, opportunities in mathematics ,Artificial Intelligence. The aim of this activity was to encourage self and group learning and to develop interest in research. Students read books related to given topics, searched and collected the information from various website and presented aesthetically.

Dr. D. G. Jadhav, Vice principal, observing posters

Dr. D. G. Jadhav, Dr. Z. S. Ansari, Chairman of Science Association, Prof. Smt. S. R. Joshi

Poster Presentation Competition Report

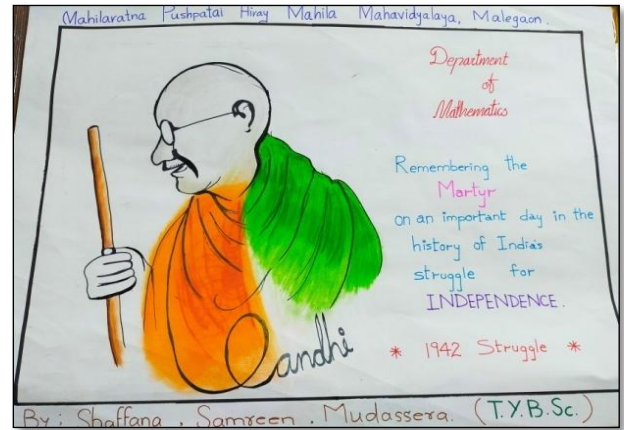

Date: 20.08. 2022

On the occasion of Azadi ka Amrut Mahostav Department of Mathematics organized poster presentation competition dated 17 August 2022. The theme for this competition was a fundamental event in freedom struggle. In this competition 15 students were participated. They prepared poster on The Revolt of 1857, Champaran Satyagrah, Azad Hind Sena, Salt Satyagrah, Quit India Movement, struggle for Independence, Devotion of Bhagatsingh.

This program was inaugurated by Principal Dr. U.S. Deore, Vice-principal Dr. D. K. Borse and Academic Supervisor Dr. T.A. Sontakke. For success of this competition Smt. S.R. Joshi, Mr. R.A. Pawar and Dr. P.A. Survase made lot of efforts.

Poster Presentation Report

Date: 03.03.2023

Department formed ten groups of the T.Y.B.Sc. Students and each group was assigned specific topics on computer languages and machine learning. The aim of this activity was to encourage self and group learning and to develop interest in research. Students enthusiastically prepared their project and presented their work neat and nicely through poster on the occasion of National science day dated 28th Feb.2023.

This program was inaugurated by Principal Dr. U.S. Deore, Vice-principal Dr. D. K. Borse and Academic Supervisor Dr. T.A. Sontakke. For success of this competition Smt. S.R. Joshi, Mr. R.A. Pawar and Dr. P.A. Survase made lot of efforts.
