**“QUIZ COMPETITION ON PERIODIC TABLE Feb. 2022”**

**REPORT**

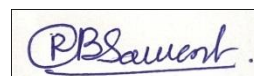

**Activity Date: 08/02/2022**

The Great Russian chemist **Dmitri Mendeleev** was born in 8<sup>th</sup> February 1834 who developed the periodic classification of the elements. Dmitri Mendeleev was passionate about chemistry. His deepest wish was to find a better way of organizing the subject.

Mendeleev's wish led to his discovery of the periodic law and his creation of the periodic table – one of the most iconic symbols in science: almost everyone recognizes it instantly: science has few other creations as well-known as the periodic table. Using his periodic table, Mendeleev predicted the existence and properties of new chemical elements. When these elements were discovered, his place in the history of science was assured. Element 101 is named Mendeleevium in his honor. Dmitri Mendeleev is often referred to as the Father of the Periodic Table.

On the occasion of his 188<sup>th</sup> birth anniversary, the Department of Chemistry, Mahilaratna Pushpatai Hiray Mahila Mahavidyalaya, Malegaon camp, organized “Quiz Competition on Periodic Table” on 8<sup>th</sup> February 2022. In this quiz competition 59 students of F.Y.B.Sc.S.Y.B.Sc. and T.Y.B.Sc, actively participated. All faculty members are guided about this competition.

Among all the participating students, First prize got by F.Y.B.Sc. student Pawar Prerana Raju, Second prize got by T.Y.B.Sc. student Patel Pooja Bharat and Third prize got by S.Y.B.Sc. student Patil Lochana Vilas. All the participated students were felicitated by giving certificates.
