**“QUIZ COMPETITION ON PERIODIC TABLE Feb. 2023”**

**REPORT**

**Activity Date: 08/02/2023**

On February 8, 1834, Dmitri Mendeleev, a Great Russian chemist who created the periodic table of elements, was born. Chemist Dmitri Mendeleev had a deep love for the subject. His greatest desire was to arrange the material better.

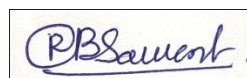

The periodic law and the periodic table were both created according to Mendeleev's intention – the periodic table is one of science's most recognizable symbols; comparatively few other scientific inventions have the same level of fame. Mendeleev anticipated the presence and characteristics of new chemical elements using his periodic table. His place in scientific history was ensured by the discovery of these elements. In his honour, Mendeleevium is the name of element 101. The term "Father of the Periodic Table" is frequently used to refer to Dmitri Mendeleev.

On February 8, 2023, the Mahilaratna Pushpatai Hiray Mahila Mahavidyalaya, Malegaon Camp, held a "Quiz Competition on Periodic Table" in honour of the 188th anniversary of his birth. In this quiz competition 82 students of F.Y.B.Sc., S.Y.B.Sc. and T.Y.B.Sc, are actively participated. All faculty members are guided about this competition.

Among all the participates from F.Y.B.Sc. students, First prize got Patil Pranjali Deepak, Second prize got Kamini Janardhan Gavali and Third prize got Desale Nikita Gorakh.

Among all the participates from S.Y.B.Sc. students, First prize got Deore Bhagyashri Hiralal, Second prize got Jagtap Kunjan Vijay and Third prize got Deore Priti Rajendra.

Among all the participates from T.Y.B.Sc. students, First prize got to Kale Tanuja Ishwar, Second prize got to Bhamare Priti Vasant and Third prize got to Khairnar Kavita Hiranman. .All the participated students were felicitated by giving certificates.
