# *Extension Activities*

## *Policy and Procedures*

**Introduction:**

Extension activities are a teaching strategy that integrates students into the community and provides opportunities for teachers to strengthen communities and teach students about social responsibility. Smt. Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon emphasizes outreach and extension programs aimed at serving and giving back to society. All departments, support services and cells organize extensions that benefit the community according to the institutional vision and mission.

**Objectives:**

- To create chances for learning beyond the classroom.
- Students should be taught about socio-economic and constitutional issue
- To impart life skills along with a sense of social and ethical obligation for a community that is inclusive.
- To promote student's personal development and leadership abilities

**Regulatory Principles:**

1. The word "Extension" refers to the deliberate use of institutional resources, such as facilities, expertise, knowledge, skills, and manpower, for the benefit of the community and stakeholders, including the college.
2. Activities for outreach and extension should engage all students.
3. The activities planned ought to encourage pupils to have a service-oriented mindset.
4. The college's service to society should be reflected in the extension programmes.
5. The underprivileged populations in the area, such as the tribal and economically underdeveloped communities, must get special attention and regard.
6. Other cells, including NSS, the Board of Student Development and others, shall adhere to the guiding principles.
7. The college's resources may be applied to the good of the local and global society while fostering the philosophy of "life in abundance."
8. The programmes are planned and carried out taking into account the benefits of the area, the community's needs, surveys, and consultations with professionals, NGOs, and government representatives.
9. Records such as notifications, circulars, schedules, geotagged photos, reports, and results of extension activities should be kept at the departmental level, and a copy should be sent to IQAC.

We make an effort to pursue a plan of constant improvement and upgrading in our practises and processes, and we regularly examine the policy to determine its on-going applicability and to track compliance.
