Practicals

1 Credit

Unit-V	
1	Key to identify different types of earthworms
2	Field trip- Collection of native earthworms & their identification
3	Study of Sytematic position, habits, habitat & External characters of Eisenia fetida
4	Study of Life stages & development of Eisenia fetida
5	Study of Vermiculture, Vermiwash & Vermicompost equipments, devices
6	Preparation vermibeds, maintenance of vermicompost & climatic conditions.
7	Harvesting, packaging, transport and storage of Vermicompost and separation of Life Stages
8	Study of verms diseases & enemies

Department of Zoology

Report of Certificate Course 2021-22

“Vermicompost Technology”

Vermicompost is the product of the decomposition process using various species of worms, usually red wigglers, white worms, and other earthworms, to create a mixture of decomposing vegetable or food waste, bedding materials, and vermicast.

Vermicast (also called worm castings, worm humus, worm manure, or worm faeces) is the end-product of the breakdown of organic matter by earthworms. These castings have been shown to contain reduced levels of contaminants and a higher saturation of nutrients than the organic materials before vermicomposting.

Vermicompost contains water-soluble nutrients and is an excellent, nutrient-rich organic fertilizer and soil conditioner. It is used in farming and small scale sustainable, organic farming.

Vermicomposting can also be applied for treatment of sewage. A variation of the process is vermifiltration (or vermidigestion) which is used to remove organic matter, pathogens and oxygen demand from wastewater or directly from black water of flush toilets. Now a day it is necessary to know in brief about vermicompost.

The Department of Zoology, M.P.H. Arts, Science And Commerce Mahila Mahavidyalaya, has Conducting Certificate course in A.Y.2021-22. For F.Y.B.Sc and S.Y.B.Sc. Student on “vermicompost Technology” On dated 1st April 2021 to 30th April 2021.

At 1st April 2022 we had started the course with inauguration in presence of our Principal Dr. U.S.Deore and Head of the Department- Zoology Smt.N.S.Desale , Co-ordinator of the course Smt.S.J.Salunke, Dr.T.A.Sontakke , Smt.D.D.Jagtap and all staff members of Zoology department.

After inauguration we started the course with lecture Smt N.S.Desale on Introduction to Vermitechnology, importance of vermitechnology in day to day life and products of Vermitechnology. During Course Respective subject teacher delivered lectures on identification the species of earthworms, selection of Earthworm culture and Culture method of Earthworm, Life cycle of Earthworm and harvesting of vermicompost, Industrial applications of vermicompost and uses of vermicopost.and practicals as per time table

On 6th May 2022, we organized Field visit to vermicompost unit at H.H H.H. Shri Shri Murlidharan Swamiji College of Agriculture , Malegaon. There we saw vermicompost beds, machine which separate vermocompost from small paddles, preparation of good quality vermicompost and they also gave us great knowledge about business of Vermicompost.

5 Department of Geography- Soil Testing –Broucher

INTRODUCTIN:-

- Nowadays our country students very much lack about soil related problems, like quality of soil, ph of soil hence they are not proper knowledge about soil hence it is very essential to know the basic understanding about various types of soil. among students for their all round personality development and better employment opportunities among students.
- To learn basic Soil testing and its importance.
- To prepare students to helping attitude towards farmers . Hence the Department of Geography decided to run the certificate course for the selected students and ensure them for better employment

COURSE OUTLINE

- The course aims to create awareness about the soil testing and its management for better employment opportunities and personality development of the students.
- The course will create practical applicability among the students, which will make them to prepare to tackle various soil related problems

Duration of the course
10 Jan 2022 TO 9 Feb 2022
ALLOTTED CREDITS -02
Who can apply?
FY/SY/TYBA/B.Sc/BCOM.

5 Department of Geography- Soil Testing- Report

Report of certificate course in Soil Testing

Dept of Geography conducted the certificate course in soil testing. This programme conducted for 30 days. Nearly more than 30 students actively participated for this course. In this course departmental faculty conducted lectures on various topics regarding soil importance and its analysis. Definitely this course become fruitful for the students because they learned something new which is very crucial from agricultural point of view because more than 90 percent students is agricultural background , where finally they will guide the farmers on grass root level.

Prof .B.D.Pagar from the MGVS ASC college Harsul was the chief guest of conclusion programme of certificate course on soil Testing

Add -on Certificate Course in

“Basic Ecological Aspects”

Introduction

- Ecology enriches our world and is crucial for human wellbeing and prosperity. It provides new knowledge of the interdependence between people and nature that is vital for food production, maintaining clean air and water, and sustaining biodiversity in a changing climate.
- To learn these ecological Aspects is need of an environment. In B.Sc syllabus structure, few introductory unit of Ecological Aspects are included. But they are not sufficient, as the main focus of the syllabus structure is on literacy pieces.
- So it is needed to learn new concepts of Basic Ecological Aspects. Hence the Department of Botany decides to run this certificate course for the selective students and ensure them for better employability opportunities.

Course Outline

- The course aims to create awareness about the environment for better employability of the students. Ecological Aspects support for pleasant and appealing personality traits.
- This course provide new ideas to aware our Environment.

Syllabus

Certificate Course on Green Chemistry January-February 2021

Objectives: To learn about the environmental status, public awareness in evolution, principles involved in green chemistry, global warming and its control measures.

Unit I Introduction

Introduction-Current status of chemistry and the Environment-Evolution of the Environmental movement: Public awareness - Dilution is the solution to pollution Pollution prevention

Unit II Principles

Green Chemistry – Definition – Principles of Green Chemistry - Why is this new area of Chemistry getting to much attention - Why should chemist pursue the Goals of Green Chemistry - The roots of innovation – Limitations

Unit III Green House Effect

Green house effect and Global Warming – Introduction - How the green house effect is produced - Major sources of green house gases - Emissions of CO₂ - Impact of green house effect on global climate - Control and remedial measures of green house effect - Global warming a serious threat - Important points.

Outcomes:

To understand the environmental status and evolution

- To know about the Pollution and its prevention measures
- To familiarize the green chemistry
- To understand about the vitamins and antibiotics
- To expertise the global warming and its effects
- To learn about the control and remedial measures of green house effect

**DEPARTMENT OF PSYCHOLOGY
CERTIFICATE COURSE IN SOFT SKILLS DEVELOPMENT
REPORT 2019-2020**

Department of Psychology has successfully carried out one month certificate course in Soft Skills Development during the academic year 2019-20 from 1st Jan 2020.to 31st Jan 2020. The duration of the course was 30 hours. Total 30 students were admitted for this course and students were selected from the F.Y.B.A, S.Y.B.A and T.Y.B.A. classes. It was a self -financed course and Jaimala Sode, HOD of the department conducted the lectures and provided the guidance about difference between hard and soft skills

The objective of the course was to develop awareness regarding soft skills and hard skills, to helpful for differentiating soft skills and hard skills, to identify and develop soft skills of students, to develop self awareness among students, to develop effective social behaviour and to demonstrate good manners and etiquettes, to develop cautious attitude towards life skills and also to improve effective communication and leadership skills of the students. The aims and objectives of the course were achieved successfully.

Report 2019 - 2020

Department of Mathematics has successfully carried out the short term certificate course in Basic Mathematics during 2019-2020 (01/01/2020 to 03/02/ 2020). The duration of the course was 30 hours. Total 35 students were admitted and T. Y. B. Sc students were selected for this course. It was self finance course. Smt. S. R. Joshi and Smt. Saima Firdous Md. Yaseen conducted the lectures and provided the guidance for this certificate course. The objective of the course was to develop a good ability to solve problem. Also it provide the basis of mathematical skills and processes which will be needed for vocational purposes. The aims and objective of the were achieved successfully.

Course Content: Syllabus/Program:

SCHEME

Vermicompost technology as one of the Certificate Course at undergraduate level

Credits to be earned	:02
Theory paper	:01credits
Practical course/paper	:01

Proposed distribution of the course structure

Sr.No.	Code	Title of the paper	Credit value
1	VTT - 01	Vermicompost technology	01
2	VTP - 02	Vermicompost technology related to theory (VTP – 01)	01

Open selective course for any students enrolled in the College from different disciplines.

Title of the Course: Certificate Course in Vermicompost Technology

Theory Course VT -01

Theory

1 Credits

Unit-I General Vermiculture/ Vermicompost	
1	Introduction to vermiculture. definition, meaning, history, economic important, their value in maintenance of soil structure, role as four R's of recycling reduce, reuse, recycle, restore.
2	Earthworms role in bio transformation of the residues generated by human activity and production of organic fertilizers. How does nature works.
3	The matter and humus cycle (product, qualities). Ground population, transformation process in organic matter.

4	Choosing the right worm. Useful species of earthworms. Local species of earthworms. Exotic species of earthworms. Complementary activities of autoevaluation.
Unit-II Earthworm Biology and Rearing	
5	Key to identify the species of earthworms.
6	Biology of <i>Eisenia foetida</i> . a) Taxonomy Anatomy, physiology and reproduction of Lumbricidae. b) Vital cycle of <i>Eisenia fetida</i> : alimentation, fecundity, annual reproducer potential and limit factors (gases, diet, humidity, temperature, PH, light, and climatic factors).
Unit-III Vermicompost Technology (Methods and Products)	
7	Small Scale Earthworm farming for home gardens - Earthworm compost for home gardens
8	Conventional commercial composting - Earthworm Composting larger scale
9	- Earthworm Farming (Vermiculture), Extraction (harvest), vermicomposting harvest and processing.
10	Nutritional Composition of Vermicompost for plants, comparison with other fertilizers
11	Vermiwash collection, composition & use.
12	Enemies of Earthworms, Sickness and worm's enemies. Frequent problems. How to prevent and fix them.

Practical Course – VT- 02

Practicals

1 Credit

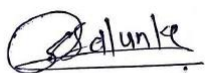

Unit-V	
1	Key to identify different types of earthworms
2	Field trip- Collection of native earthworms & their identification
3	Study of Sytematic position, habits, habitat & External characters of Eisenia fetida
4	Study of Life stages & development of Eisenia fetida
5	Study of Vermiculture, Vermiwash & Vermicompost equipments, devices
6	Preparation vermibeds, maintenance of vermicompost & climatic conditions.
7	Harvesting, packaging, transport and storage of Vermicompost and separation of Life Stages
8	Study of verms diseases & enemies.

Reference books:

1. Bhatt J.V. & S.R. Khambata (1959) "Role of Earthworms in Agriculture" Indian Council of Agricultural Research, New Delhi
2. Dash, M.C., B.K.Senapati, P.C. Mishra (1980) " Vermes and Vermicomposting" Proceedings of the National Seminar on Organic Waste Utilization and Vermicomposting Dec. 5-8, 1984, (Part B), School of Life Sciences, Sambalpur University, Jyoti Vihar, Orissa.
3. Edwards, C.A. and J.R. Lofty (1977) "Biology of Earthworms" Chapman and Hall Ltd., London.
4. Lee, K.E. (1985) "Earthworms: Their ecology and Relationship with Soils and Land Use" Academic Press, Sydney.
5. Kevin, A and K.E.Lee (1989) " Earthworm for Gardeners and Fisherman" (CSIRO, Australia, Division of Soils)
6. Rahudakar V.B. (2004). Gandul khatashivay Naisargeek Paryay, Atul Book Agency, Pune.
7. Satchel, J.E. (1983) "Earthworm Ecology" Chapman Hall, London.
8. Wallwork, J.A. (1983) "Earthworm Biology" Edward Arnold (Publishers) Ltd. London.

Advantage of the Course & Future Prospects:

- I. Students can construct their own compost farm & thereby can get monthly income of Rs. 7000-8000.
- II. Students/ farmers by using vermicompost in their field can increase the crop yield.
- III. Students residing in cities can produce vermicompost in small scale for garden/household plants.
- IV. They can get the jobs in educational institutes as vermicompost/vermiculture technician.
- V. The candidate can generate income by supplying verms, vermiwash, & vermicompost.
- VI. By developing & propagating vermicompost technology he/she will directly or indirectly help to prevent environmental pollution, by using vermicompost in the field & thereby increasing crop yield he will help to solve food problems.
- VII. It will lead towards organic farming & healthy food.
- VIII. In today's world, recycling of garbage has become necessary in order to sustain our health and environment. So let's join for **Four R's of Recycling Reduce, Reuse, Recycle, Restore** i.e. certificate course in vermicompost technology.

Malegaon-Camp Dist. Nashik
Syllabus
Certificate course in Soil & Water Analysis

Theory:

Unit I- Introduction to soil analysis

- Types of soil,
- Soil pollutants,
- Soil testing,
- Uses of soil analysis

Unit II- Introduction to water analysis

- Types of water,
- water pollutants,
- water testing,
- Uses of water analysis

Practicals:

Part I- Soil Analysis

- 1) Determination of p^H and electrical conductivity of soil and thereby its total soluble salts.
- 2) Determination of nutrient content (NPK) of soil.
- 3) Determination of calcium carbonate in soil by Rapid Titration method.

Part II- Water Analysis

- 1) Determination of pH and electrical conductivity of water sample.
- 2) Determination of carbonate, bicarbonate and chloride from water sample.
- 3) Determination of calcium and magnesium from water sample by EDTA Titration method.

References:

- 1) Water pollution by Dr. Anuradha Salpekar.
- 2) Environmental pollution analysis by S.M. Khopkar.
- 3) Agricultural chemistry Theory and Practicals by Prof. K.K. Deshmukh.
- 4) Agriculture and Dairy Chemistry-Manali Prakashan

Syllabus for Certificate Course in Vedic Mathematics

Unit-I: Multiplication

1. Ekadhikenpurven method (multiplication of two numbers of two digits)
2. Eknunenpurven method (multiplication of two numbers of three digits)
3. Urdhvatiragbhyam method (multiplication of two numbers of three digits)
4. Nikhilam Navtashchramam Dashtaha (multiplication of two numbers of three digits)
5. Combined Operations

Unit-II: Division and Divisibility

Part A:

Division

1. Nikhilam Navtashchramam Dashtaha (two digits divisor)
 2. Paravartya Yojyet method (three digits divisor)
- Part B: Divisibility
1. Ekadhikenpurven method (two digits divisor)
 2. Eknunenpurven method (two digits divisor)

Unit III: LCM and HCF

Unit IV: Power and Root

Power: (i) Square (two digit numbers), (ii) Cube (two digit numbers). Root: (i) Square root (four digit number)
(ii) Cube root (six digit numbers)

Unit-V: Contribution of Indian Mathematicians (In light of Arithmetic)

1. Aryabhata
2. Brahmagupta
3. Mahaveeracharya
4. Bharti Krishna Tirtha
