### AGRICULTURE COLLEGE VISIT-A REPORT

On 13 Feb. 2017 Department of Zoology organized a one day visit for F.Y/S.Y/TYB.Sc students at Agriculture College, Malegaon. All the Staff members of Zoology Department Smt.Desale N.S., Prof.G.K.Pawar and Miss. PranaliWagh were present along with the students. During this visit Mr. Bachkar, Mrs.Bagal, Mrs. Chavan and her team demonstrated various activities of the dairy laboratory, Entomolog Laboratory and Poultry. The visit was aimed at imparting the real life perspective and experiential learning in the presence of the experienced practitioners. The importance of visits to laboratories is to help the students in connecting the theoretical concepts to the practical applications which will help them in integrating the knowledge, skills and competencies acquired by the students during their tenure at College. In this visit students got information about various fields. The students interacted with the staff of the College in very informal environment at the Farm, Goat Farm, Vermicomposting unit etc. Students from F.Y., S.Y, and T.Y. B.Sc. joined the visit under the guidance of Prof. N.S. Desale and Prof. G.K. Pawar and Miss Pranali Wagh.

**Report**

**Study Tour to Nandur Madhmeshwar Bird Sanctuary, Niphad  
Dist-Nashik , Maharashtra.**

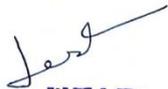

Department of Zoology, S.P.H.Mahila Mahavidyalaya has conducted Study Tour to Nandur Madhmeshwar Bird Sanctuary, Niphad for SY and TY. Bsc Zoology students on 10<sup>th</sup> December 2018. Twenty Five Students accompanied with Four teachers were visited.

Nandur Madhmeshwar Bird Sanctuary is located at Niphad Tehsil of Nashik District, known as the Bharatpur of Maharashtra. It is designated as Ramsar Site and it's a Maharashtra's first Ramsar site. A stone pickup is constructed across river Godavari at Nandur Madhmeshwar. This resulted into the formation of rich environment for biological diversity. Many species of plants like Babul, Tamarind, Neem, Jamun, Vilayati, Maharukh, Pangara, Mango, Eucalyptus, are found here, also some aquatic plant species are available

The main objective of study tour was to make students aware of the different features of birds like different types of beaks, feathers, legs. It was also expected that the students should get the experiential knowledge of these features of birds and they can see and observe the different types of birds.

During this Tour students observed the different types of birds like colorful parrots, ducks, ostrich. They also observed different colorful fishes and their features. They also saw food of that birds eat and the type of nest where they live. They realized the functions of their each body parts. Students understood that how they take care of these birds and what type of food they provide to the birds. It was an unique experience for the students to learn about different features of birds by visiting the bird sanctuary.

After seeing the birds, students were happy to see these birds. This experience was memorable for the students as they practically observed the different features of the birds. They enjoyed this Study tour. The tour was coordinated by HOD Smt.N.S.Desale and faculty members.

REPORT ON WATER FILTER PLANT VISIT

Department of Zoology, Smt. Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon Camp Dist. Nashik organized Students visit to Water Purification Plant at Malegaon on 16/02/2019 as a part of T.Y.B.Sc-Zoology studies. Fifty students joined the visit under the guidance of faculty HOD Prof Smt. N.S.Desale, Prof..G.K.Pawar and Miss P.M.Pawar.

The main objective to organize this visit was to make students aware how water filter plants remove the chemicals, particulates, organic materials as well as other debris from the water and treat the water resulting in clean and potable water that can be used for cooking, cleaning. Mr. Patil explained well about the structure and working of the water purification plant and offered us a visit to the concerned areas. Students got an excellent benefit by visiting the biggest water purification plant in Malegaon with a capacity from present 18 million litres per day (MLD) to 24 million .

Water plays a very important role in human life, whether for daily routine purpose or human health. This field visit gave Students, the knowledge about the purification of water on large scale and made aware about the quality of water since it may affect the human health especially. Also the trip made Student to realized that it is not easy to supply the water directly from the main supply to the people. Thus, thanks to the responsible party and the workers who invested in this project to ensure the health and convenience of the people in Malegaon .

## Report of the study visit

In the academic year 2019-20, an educational visit was organized on behalf of the Department of Economics on 15.1.2020 at The Central Bank of India, Malegaon Camp. It is necessary for the students to understand the activities related to banking in practical form as Modern Banking paper is taught at SYBA General level.

The Branch manager Mr. ShekharBhadane and all his staff informed the students about all the activities going on in the bank and gave information about what kind of work is done in different departments of the bank. At the same time, detailed guidance was given on how to open a bank account, fill passbook, how to fill withdrawal and payment slips, types of accounts, types of cheques, which documents should be completed to open an account etc.. All these activities were demonstrated to the students. He also cleared the doubts of the students in this regard. The Manager and all other employees of the bank gave valuable guidance to the students.

### **Outcome of the event:**

Through this visit, the students got practical knowledge in the subject of banking; which is important in day to day life.

### Report on Industrial Visit AT M.B. Sugars & Pharmaceuticals

Name of Dept - Chemistry  
Visit Dale- 09/02/2022  
Venue: M.B. Sugars & Pharmaceuticals Limited,  
Nilgawan, Malegaon, Tal- Malegaon, Dist Nashik  
No. of Participant- 26

#### Objectives of the Visit:

- 1) The main objective of an industrial visit is to provide the students an insight regarding internal working of companies.
- 2) To get the students theoretical knowledge of business as well as practical knowledge of its function.
- 3) The objective behind the visit was to make students aware about various activities related to sugar processing techniques.

This factory is established in the year 1996 M.B. Sugars & Pharm. limited are engaged in manufacturing and exporting pharma grade's Sucrose, MCC and Sugar Spheres / Globules, Mannitol Powder in pharma products and Sugar Sachets, Cubes, brown sugar, sugar substitute and specially sugar for food.

After visiting the industry student's gets knowledge about different analytical techniques used in sugar industry and manufacturing process.

#### Observations of the visit

Students are visited the quality control department which include-

**A) Instrumental Lab:** In instrumental lab UV spectrometer is used for qualitative and quantitative analysis. The Polarimeter is determines sucrose percentage in products. FTIR used for determination of functional group of particular compound. Most important instrument is HPLC which control the purity of the product, thus includes separation and purification of product.

**B) Chemical Laboratory:** In chemical laboratory students learned about lab safety methods. Students also learned how to prepare various solutions / reagents. Participated students learned how chemical laboratory determined purification and qualitative analysis of products by various methods.

Students observed small storage room which keep raw material temporarily, how desired samples is stored in a specific way to prevent contamination and evaporation of the product sample.

### Report On Visit At Aadesh Soil and Water Analysis Lab

Name of Department - Chemistry

Visit date – 07/05/2022

Venue- Aadesh Soil and Water Analysis Lab, Malegaon, Dist Nashik, Maharashtra

No. of Participants: 33

#### Objectives of the visit..

- 1) To get knowledge about how to conduct media tests during the growing season to manage crop nutrition and soluble salt levels.
- 2) How to protect the environment from contamination by runoff and leaching of excess fertilizers.
- 3) To get knowledge about to improve nutritional balance of the soil.
- 4) To learn about pH determination & Fertility level of soil.
- 5) To get knowledge about to obtain physical, chemical & biological characteristics of water via statistical sampling.

#### Observation of the visit:

- 1) Students learn how to operate Flame photometer in soil & water testing. For determination of concentration of certain metal ions like Na, K, Li, Ca etc.
- 2) Student learned FES for water analysis to the direct determination of Ca, Mg, Na, Fe in water.
- 3) Students observed the AAS which is useful to analyze a wide range of environmental samples like water, soil, for large no. of elements, use of AAS to determine Pb content in soil.
- 4) To operate AAS which measures the concentration of micro-elements in soil, fertilizers and plant sample solutions?
- 5) Students learned about operation of conductometer which measures the amount of salt in soil which is excellent indicator of nutrient availability & Soil texture and available water capacity.

## PROGRAMME OUTCOME

Industrial visit has its own place of importance in a career of a student who is pursuing traditional degree course like B.Com. In fact, it constitutes a part of core course curriculum taught at the college. The objective of an industrial visit is to provide the students an insight regarding the internal working of companies. Today, we all perfectly understand that theoretical knowledge is just not enough for a successful professional career. It is here that by going beyond academics, industrial visit provides students a much relevant practical perspective of the actual work place and the larger world of business.

1. Industrial visits provide the students with an opportunity to learn practically through interaction, working methods and employment practices.
2. It gives exposure to the students about practical knowledge.
3. Industrial visits grant the students a great opportunity to interact with industries and know more about industrial environment.
4. Industrial visits are arranged by colleges for their respective students with an objective of providing them an opportunity to explore the different industry sectors like IT, manufacturing, services, finance and marketing.
5. Industrial visit helps students to combine their theoretical knowledge of business operations with the practical knowledge of its actual functioning.

In conclusion, it can be said that 'Industrial Visit' is a most practical approach towards learning through interaction, working practices etc. and hence gives a perfect reality check to the students.

### Visit to Saundana

#### Visit Report

02 Feb.2022

**Department of Botany & Student Development Department Celebrated Wetland day**  
Department of Botany organized field visit to Saundana on 02.2.2022 for TYBSc students at Saundana and celebrated **“World Wet Land Day**. Students visited Saundane Gram Panchayat where Mr K.S.Bhamare gave information to the students regarding **“Vasundhara scheme”** implemented by the Government.

In this scheme the government focuses on **“Punchmahadhatu”** means the five **Natural Resources** like Air, Water, Soil, Sun and Sky. It is our duty to preserve and conserve our natural resources. He showed the metrological data of air, where there is less air pollution in the area and minimum use of plastic. He made students take the oath of Vasundhara

Then students observed the Onion and Sugarcane cultivation field, and the students gave information to the workers of the field regarding wet land. The students collected plants for preparation of Herbarium.

**Department of Botany & Student Development Department Celebrate Wetland day**

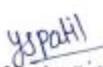

**Outcomes of this Field Visit**

Students know the wet land day importance Wetlands are ecosystems where water is the primary factor controlling the environment and the associated plant and animal life. These lands are critical to people and nature, given the intrinsic value of these ecosystems, and their benefits and services, including their environmental, climate, ecological, social, economic, scientific, educational, cultural, recreational and aesthetic contributions to sustainable development and human wellbeing.

Peoples really importance of Wetlands is among the ecosystems with the highest rates of decline, loss and degradation. Indicators of current negative trends in global biodiversity and ecosystem functions are projected to continue in response to direct and indirect drivers such as rapid human population growth, unsustainable production and consumption and associated technological development, as well as the adverse impacts of climate change.

This day celebration get knowledge about vicious cycle of wetland loss, threatened livelihoods, and deepening poverty is the result of mistakenly seeing wetlands as wastelands rather than life giving sources of jobs, incomes, and essential ecosystem services. A key challenge is to change mindsets to encourage governments and communities to value and prioritize wetlands.

## Report

The Department of Economics visited HEART CARE FOOD PRODUCT PVT.LTD on.The director of the Heart Care Product Institute spoke to the students and they learnt about the production and sales process of the Heart Care and Product Institute. The students actually observed the actual process of production of these items. The Director gave detailed information on how such non-chemical edible oils are good for health.

This kind of small business, cottage industry gives us good income and at the same time we can provide employment to some people.Also, after extracting oil from these oilseeds, the remaining one-fourth of the oilseeds can be used as animal feed and one can also get good financial income from it.

This information can definitely be used by the students for their future. The ability to create jobs instead of seeking employment can be created by students through such initiatives.

### Outcome of the event:

The students learnt about the process of production and sale of these items in the context of Q&A.

In this visit student's learned how to make chemical-freeedible oil from different types of oilseeds.

#### **Activity Report**

- **Topic:** Basics in Chemistry
- **Guest Lecturer:** Asso. Prof. Dr. T.S. Savle
- **Date & Time:** 22/12/2021; 02:30 pm
- **Venue:** First floor, Hall No. 09
- **Guest Profile:** Associate Professor at Maharaja Sayaji Gaikwad Arts, Science and Commerce College, Malegaon Camp.  
Qualification: M.Sc. Ph.D.  
Experience: 25 Years  
Area of Specialization: Organic Chemistry
- Total No. of Students Attendees: 56

As a part of departmental activity a guest lecture on "**Basics in Chemistry**" was held on **22<sup>nd</sup> December 2021**. The guest lecture has been organized by the **department of Chemistry** to provide the knowledge of basics of Chemistry to students. All the students of third year and some of second year attended the lecture.

The guest lecture began with welcome address by the Head of the Department, Smt. B.V. Shewale Madam. She has introduced and welcomed Dr. T.S. Savle sir who was resource person to deliver the lecture. The session was then continued by Dr. T.S. Savle who began with an introduction to basics of Chemistry

and how important it is going to be in the near future. Following which he shed light on the various types of bonds and nature of bonding in chemical compounds. He explained that the atom and molecules are the basic unit or components of Chemistry. The study of chemists is always interested in identifying and knowing how the chemical transformation occurs. It plays an essential role in science and plays a central role in daily life activities. He also suggested & encouraged to students to do career in Chemistry.

After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. The session was ended with heartily thanks by Dr. A.Kale sir to Dr. T.S. Savle for taking the time out to educate the students about chemistry. He thanked the department & college management for providing the platform to organize guest lectures on basics of chemistry. He appreciated Faculty members, students for the successful conduction of the guest lecture.

**Report of Webinar on Spectrophotometry**

31<sup>st</sup> December 2021

Department of chemistry has organized the webinar on "Spectrophotometry" on 31<sup>st</sup> December 2021 under DBT Star College Scheme. Resource person Dr. S.S. Kale (Assistant Professor, Department of Chemistry, Navapur College) conducted the session very effectively and enlightened the students about important aspects of Spectrophotometry. A spectrophotometer is an analytical instrument used for the objective calculation of visible light, UV light, or infrared light emission or reflection. Spectrophotometers measure intensity as a function of the wavelength of the light source. He explained double beam spectrophotometers work in a similar way to single beam spectrophotometers but with a key difference. The initial light source is split into two; one beam passes through the sample, and the other through a reference solution or the solvent. The ratio of the two light beams then corresponds to the absorbance of the sample

The program is conducted via Zoom platform. The zoom link has been provided to the S.Y. B.Sc. and T.Y. B.Sc. (Chemistry) students via whatsapp group.

National Board for Higher Mathematics

The competition is named after Madhava, who introduced in the fourteenth century, profound mathematical ideas that are now part of Calculus. His most famous achievements include the Madhava-Leibnitz series for  $\pi$ , the Madhava-Newton power series for Sine and Cosine functions and a numerical value of  $\pi$  that is accurate to eleven decimal places. The "Madhava School", consisting of a long chain of teacher-student continuity, flourished for well over two centuries, making significant contributions to mathematics and astronomy.

To,  
Head,  
Department of Chemistry  
Through, Respected Principal of the College

We are happy to inform you that CHEMIAD 2019 intercollegiate competition will be conducted on **Friday 8<sup>th</sup> February 2019 from 1 to 2pm at respective centers**. The examination is for the F.Y. / S.Y. / T.Y. B.Sc. students opting Chemistry as one of the subjects. The aim of chemiad examination is to create interest of the subject among the students and to make them well prepared for the different competitive examinations in chemistry.

The question paper will contain **50 multiple choice questions from the XI<sup>th</sup> Chemistry syllabus upto the syllabus of the respective class and the time limit will be one hour**. Certificate of participation will be given to every participant. A team of three candidates, who will be first in the MCQ examination from F.Y., S.Y. and T.Y. B.Sc. classes of each participating college, will be formed. These teams will be called for **quiz competition on 21<sup>st</sup> Feb. 2019 at M.S.G. College, Malegaon-camp**. Top three teams will be felicitated by trophy and cash prizes in an official prize distribution function organized by Department of Chemistry **on 21<sup>st</sup> Feb. 2019** at M. S .G. College, Malegaon Camp.

The college which will provide 50 participants will be allowed for the competition. Remuneration and 'Certificate of Appreciation' will be given to the faculty member who will work as coordinator of the college and to the junior supervisors.

You are requested to collect **participation fee of Rs.50/- per student** and the list of participants should be sent by e-mail to [pankaj\\_pawar65@yahoo.com](mailto:pankaj_pawar65@yahoo.com) in the M.S. word 2007, font Times New Roman and font size 12 format to **Dr. P. ## DR. Babasaheb Ambedkar's Thoughts on Economy

Bharat Ratna Dr. B. R. Ambedkar was a dynamic person in Indian history. He was contributed as an economist, sociologist, legal luminary, educationalist, journalist, parliamentarian, editor, social revolutionist, height of the human rights etc. He was a first highly educated scholar within untouchable community in India. He wrote three scholarly books and many papers on economics. Indian economy is mixed economy & have impact of changes in social, political and economical changes before and after independence. He represented problem of physical and economical exploitation of rural poor through his movements.

Dr. Ambedkar has given new socio and political view to Indian economics, Dr. Ambedkar decided to "change over from economics to law and politics". He argued for fixed gold standard for exchange rate. He told that low exchange rate increases exports and boosts internal prices.

In the age of global market vision 20-20 mostly contain his economical thoughts. The economical use of public funds and its proper utilisation for planned objectives can be growth the economy of nation. Democratic people must to enlighten each other for his canon & judicial provisions regarding public funds and its uses.

## Thoughts of Dr. B.P. Ambedkar For Indian Economy

Dr. Ambedkar represented problem of physical and economical exploitation of rural poor through his movements. His struggle against the prevailing land tenure system called *khaki* was best example of his thoughts of equilibrium.

Indian economy is Mixed economy and has impact of social, political and economical changes before and after independence. Dr. Ambedkar has gives new socio and political view to Indian economics. Dr. Ambedkar decided to "changeover from economics to law and politics" as he remarked in the preface of the Indian edition of the *problem of the Rupee* in 1947. He clearly told "continued devaluation of the Indian currency which while was good for Indian exports, was not good for the Indian economy. Increasing and decreasing values of gold and silver has been problematic issue to decide exchange rate.

At that time gold and silver coin or foreign currency due to change in price of these metal. Ambedkar's writings took all this and argued stridently for a proper gold standard with gold currency as he was highly critical of the gold exchange standard though the latter received powerful theoretical support from all the then leading authorities including John Maynard Keynes. Neither was Ambedkar a votary of deliberate lowering of the exchange rate whether

planned or unplanned.

He told that low exchange rate increases exports and boosts internal prices. In the current situation globalization and privatization are mostly affecting factors to economy. Govt. is supporting to increase export. This benefits the trading classes at the expense of the poorer people at home.

The main point he makes is that an alien governments cannot be expected to use the funds it has to the betterment of the people. As he made it clear "if the executive in India did not do certain things most conducive to progress it was because by reason of its being impersonal and also by reason character, motives & interests it could not sympathize with the living forces operating in the Indian society was not advance education that mean this is must to its aspirations.

While the determination of the Aggregate level of expenditure is a matter of overall policy based on the democratic will of the people, allocation of that total among competing demands and manner of utilisation fall within the domain of theal. canons. In the present context of high fiscal deficits, a rigorous application of the Ambedkar canons can help reduce the quantum of fiscal deficits. Application of the Ambedkar canons can help reduce the quantum of public expenditure. In his paper 'small holdings in Indian their

remedies' published in 1918, he takes on a problem that is still haunting Indian Agrarian system. As argued, land is only one of the many factors of production and the production are combined. In his chief object of an efficient production consists in making every factor in the concern contribute its highest and it can do that only when it can co-operate with its fellow of the required capacity.

Thus, there is an ideal with proportions that ought to subsist among the various factors combined, though the ideal will vary with the changes in proportions. From there he proceeds to say that if agriculture is to be treated as an economic enterprise, then by itself that if agriculture "is to be treated as an economic enterprise then by itself, there could be no such thing as a large or small holding".

Most of the population is engaged in farming in India. Hidden unemployment in Agriculture and dependency of increasing population can become a problem for an economy.

❖ **Objective of the Event:**  
Quiz competitions are always interesting and informative, which provide excitement among the Students .The main objective of this event to make them aware of recent general knowledge related to Biodiversity Conservation

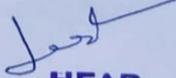

❖ **Brief Report on Quiz event**

Department of Zoology S.P.H. Mahila Mahavidyalaya has arranged Quiz namely Powering Atmnirbhar Bharat through Biodiversity Conservation behalf of celebration of Independence Day under the theme of Aatmanirbhar Bharat Abhiyan given by the Hon'ble Prime Minister, Shri Narendra Modi . Aatmanirbhar Bharat Abhiyan is the mission started by the Government of India on 13 th May 2020, towards making India Self-reliant.

Due early reports of COVID-19 pandemic, the Department of Zoology had scheduled the Quiz on 15 th August 2020 held at virtual platform. The Quiz had one rounds . Rules and regulations of the quiz were explained at the beginning. At the end of Quiz all students received the certificate of participation ,which is very interesting among the students .

By attempting the quiz, Students gain the knowledge about biodiversity and its conservation which is very important at the current scenario with respect to ecological wealth of our country .

**Outcome of the Event :**  
It was very informative and knowledge enriching competition for the participants.  
Virtual platform based competition gives better experience to the participants.

"QUIZ COMPETITION ON PERIODIC TABLE Feb. 2022"  
REPORT

The Great Russian chemistry **Dmitry Mendeleev** was born in 8<sup>th</sup> February 1834 who developed the periodic classification of the elements. Dmitri Mendeleev was passionate about chemistry. His deepest wish was to find a better way of organizing the subject.

Mendeleev's wish led to his discovery of the periodic law and his creation of the periodic table – one of the most iconic symbols in science: almost everyone recognizes it instantly: science has few other creations as well-known as the periodic table. Using his periodic table, Mendeleev predicted the existence and properties of new chemical elements. When these elements were discovered, his place in the history of science was assured. Element 101 is named Mendeleevium in his honor. Dmitri Mendeleev is often referred to as the Father of the Periodic Table.

On the occasion of his 188<sup>th</sup> birth anniversary Department of Chemistry, Mahilaratna Pushpatai Hiray Mahila Mahavidyalaya, Malegaon camp, organized "Quiz Competition on Periodic Table" on 8<sup>th</sup> February 2022. In this quiz competition 59 students of F.Y.B.Sc., S.Y.B.Sc. and T.Y.B.Sc, are actively participated. All faculty members are guided about this competition.

Among all the participated students, First prize got by F.Y.B.Sc. student Pawar Prerana Raju, Second prize got by T.Y.B.Sc. student Patel Pooja Bharat and Third prize got by S.Y.B.Sc. student Patil Lochana Vilas. All the participated students were felicitated by giving certificates.

## Mahatma Gandhi Tenets Competition:

### Report

Department of Zoology organized Tenets Competition on Thoughts and Ideology of Mahatma Gandhi on 17<sup>th</sup> February 2020. The main objective to organize this Competition is to create awareness of Thoughts and Ideology of Mahatma Gandhi among students and faculty.

Mahatma Gandhi, also known as the 'Father of the Nation' was a pioneer of India's Independence Movement. He is revered in the country and across the world for his philosophy towards life. This competition provides an excellent chance for countrymen to pay tribute to this great leader, who gave his life for the benefit of the country. Gandhi's beliefs and principles were one of the major motivations for masses to bring down the mighty colonial empire to its knees.

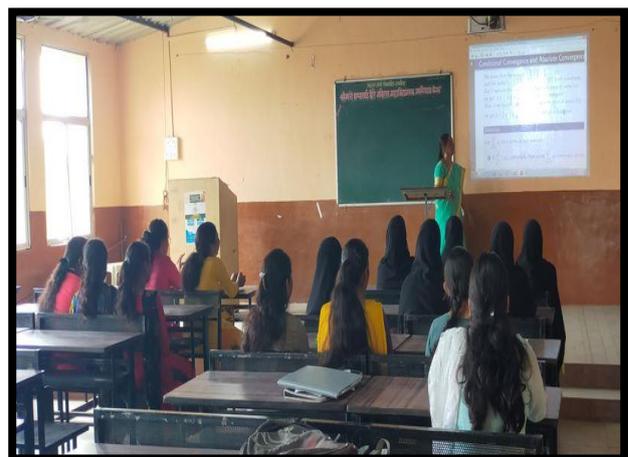

The outcome of this competition is to send across the message of peace and non-violence; also revisit his ideas, ideologies and feel the importance of patriotism within our veins. The Competition was conducted under the supervision of faculty Members of Department of Zoology.
