मालेगावकॅम्प – महात्मा गांधी विद्यामंदिर संचलित महिलारत्न पुष्पाताई हिरे कला, विज्ञान व वाणिज्य महिला महाविद्यालयात ११ डिसेंबर२०२१ रोजी क्रीडाविभाग, राष्ट्रीय सेवा योजना विभाग तसेच विद्यार्थी कल्याण मंडळातर्फे आरोग्य तपासणी व निरामय जीवन शिबीर संपन्न झाले. फिटनेस टीमचे सदस्य मा. कादंबरी शिंदे, मा. पूजा जगताप तसेच मा रोशनी नरे यांनी विद्यार्थिनींची आरोग्य तपासणी केली. मा. पूजा जगताप यांनी विद्यार्थिनींना केल्या जाणाऱ्या तपासणीची सखोल माहिती दिली.

शारीरिक, मानसिक, सामाजिक, आध्यात्मिक व आर्थिक-भावनिक आरोग्य हे परस्परांवर अवलंबून असते. समन्वयातून, सकारात्मक संतुलित विचारप्रणालीतून जे आरोग्य आहे, तेच निरामय जीवन आहे, असे त्या म्हणाल्या आरोग्य हीच खरी संपत्ती आहे. कारण शरीर निरोगी असेल तरच तुम्हाला जीवनाचा आनंद लुटता येतो.

मात्र आज कालच्या धकाधकीच्या जीवनात आपण आपल्या आरोग्याकडे नकळत दुर्लक्ष करतो ज्यामुळे अनेक आरोग्य समस्यांना तोंड द्यावे लागते. जर वेळीच योग्य ती दक्षता घेतली व प्रतिबंधनात्मक उपाययोजना केली तर अनेक विकार सहज टाळता येऊ शकतात .त्यासाठी काही चाचण्या निरोगी जीवनशैलीसाठी जरूर तपासणी करून घ्याव्यात.

आरोग्य तपासणी मध्ये वजन, उंची, पर्सॅटबॉडीफॅट ,पर्सॅटबॉडीमासइंडेक्स, मसल्समास , विजरलफॅट तसेच इतर महत्वपूर्ण तपासण्या केल्या. शरीराच्या बेसलमेटॅबॉलिकरेटवर (Basal Metabolic Rate) वजन घटणं किंवा कमी होणं अवलंबून असते. व्यक्ती परत्वे प्रत्येकाचा हामेटॅबॉलिक रेट वेगवेगळा असतो. काहिंचा नैसर्गिक रित्या हा रेट उत्तम असतो.

ह्या कार्यक्रमाचे आयोजन महात्मा गांधी विद्यामंदिर संस्थेचे समन्वयक मा. डॉ. अपूर्व हिरे, संस्थेच्या विश्वस्त व महाविद्यालय विकास समितीच्या अध्यक्ष मा. संपदा हिरे यांच्या प्रेरणेतून करण्यात आले.

महाविद्यालयाच्या प्राचार्य डॉ. उज्ज्वला देवरे यांनी सदर कार्यक्रमाच्या आयोजनासाठी मार्गदर्शन केले. उपप्राचार्यडॉ. डी. जी. जाधव व शैक्षणिक पर्यवेक्षक डॉ. डी. ए. पवार यांनी कार्यक्रमास शुभेच्छा दिल्या. सदर कार्यक्रमाचे सूत्रसंचालन क्रीडा संचालक डॉ. लहानू जाधव व आभार प्रदर्शन प्रा. दिपाली चंद्रमोरे यांनी केले.

Mahilaratna Pushpatai Hiray Mahila Mahila Mahavidyalaya conducted Health Screening Camp

Report

Mahatma Gandhi Vidyamandir's Mahilaratna Pushpatai Hiray College of Arts, Science and Commerce Mahila Mahavidyalaya conducted a health checkup and free life camp on 11th December 2021 with help of Sports Department, National Service Scheme Department and Student Welfare Board. Member of fitness team Hon. Kadambari Shinde, Hon. Pooja Jagtap and Miss Roshni Nare examined the health of the students. Hon. Pooja Jagtap gave detailed information about the examination to the students

Physical, mental, social, spiritual and economic-emotional healths are interdependent. She said that the health that comes from coordination, from a positive balanced thinking system is a free life. Health is the real wealth. If the body is healthy, one can enjoy life.

But in today's hectic life we ignore our health unknowingly due to which we have to face many health problems. If we take proper precautions and take preventive measures, many disorders can be easily avoided. For that some tests should be done for a healthy lifestyle.

In the health examination, weight, height, body fat, body mass index, muscle mass, visceral fat and other important tests were done. Weight loss or gain depends on the basal metabolic rate of the body. This metabolic rate varies from person to person. Some naturally rate better.

Homeschooling for Village Children during COVID-19 Pandemic

Activity Report

02/09/2021

Introduction:

School closures due to COVID-19 have brought significant disruptions to education across the world specifically small towns and villages where online education is not possible. In the absence of any intervention, the learning losses arising from the COVID-19 pandemic are likely to have a long term compounding negative effect on many children's future well-being. Alarming, these losses are found to be much higher among students whose parents have less education. These learning losses could translate into less access to higher education, lower labor market participation & low future earnings.

As per instructions given by the Chemistry Department, T.Y.B.Sc. students laid down the groundwork for homeschooling the poor children of their village.

Objectives:

1. To reduce and reverse the long-term negative effects of school closure in rural areas
2. To improve learning recovery in kids
3. To implement measures to support remote teaching and learning for poor children in villages who cannot afford digital media or internet.

The Activity:

The COVID-19 pandemic forced an unprecedented global shutdown that closed schools for months. In many nations, schools were closed to students, and teachers were directed educational activities remotely via digital devices. Access to the digital media or internet is not possible for poor villagers. Recognizing this trouble, three students of T.Y.B.Sc. from Chemistry Department of M.P.H. Arts,

Science and Commerce Mahila Mahavidyalaya, Malegaon Camp have taken an initiative to teach poor children of their village during the whole month of **August 2021**. Name of the students is as follows:

1. Pawar Yamini Rajendra
2. Nikam Punam Shivaji
3. Desale Hrutuja Dipak

They chose open place at temples of their village for educating kids. At the end of the month, the improvement among children was examined by taking their oral presentations. Head of Chemistry Department Smt. B.V. Shewale and the faculty members of department guided the students for the smooth conductance of the activity.

Outcomes:

1. The learning interest of children is improved as these girls were from their own village and used their mother tongue for teaching.
2. This activity has bridged the educational loss.
3. Children learned and retained their basic education.

Road Safety Awareness Program

Activity Report
Date: 27/01/2022

Introduction:

In today's world road and transport has become an integral part of every human being. Everybody is a road user in one shape or the other. The present transport system has minimized the distances but it has, on the other hand, increased the life risk. Every year road crashes result in loss of lakhs of lives and serious injuries to crores of people. With millions of lives endangered worldwide, road accidents rank alarmingly high in the recent trends of pressing social issues. Despite innumerable road safety campaigns and awareness drives, India still ranks first in the number of road accident deaths across 199 countries and accounts for almost 11% of all accident-related deaths in the world. Clearly, road safety continues to be a major developmental and public health concern, acting as a leading cause of death and injuries worldwide.

Apart from others who celebrate Republic Day just by flag hoisting, Chemistry Department has celebrated the Republic day in unique way by doing a social activity of creating awareness about road safety among vehicle drivers.

Objectives of the Activity:

1. To provide road safety information for road users to encourage safer road user behavior
2. To reduce the number of people killed & injured on our roads every year
3. To educate all road users in the proper & safe use of roads in order to change user attitudes & behavior
4. To stimulate an awareness of the need for improvement in road safety
5. To promote road safety measures in the community
6. To implement the new preventative measures which are proved to lessen the risk of road accidents, death or injury.

The Activity:

Road safety awareness program was organized to make people aware about the importance of Road Safety and how we can reduce the deaths/ injuries due to road accidents by the **Department of Chemistry of M.P.H. Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon Camp** on 26th January 2022 for the celebration of Republic Day. In this regard, students of **T.Y.B.Sc.** were continuously involved among the general people and tried to know the present level awareness about road safety and explained

people about various ways to prevent such accidents / injuries on highways of their localities under the guidance of Dr. R.B.Sawant, Dr. R.P. Hiray and Dr. A.S. Kale.

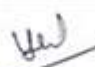

The issues, which were discussed for spreading awareness were:

- The need for wearing helmet for both, the riders and the pillion riders
- Not using mobile phones while driving
- Not crossing Zebra Lines at signals or stopping vehicles on Zebra lines
- Signal jumping or avoiding signal jumping
- Overloading of school auto rickshaws or avoiding sitting in an overloaded auto rickshaw.
- Not mixing drinking and driving
- Wearing of seat belts

Outcomes:

1. People gathered taken a pledge that we all will follow the rules and make others to follow and be safe.
2. People also pledged to wear helmets while driving wheelers and seat belts in four wheelers.
3. Road users promised that
 - Not to drive in drunken stage
 - Not to overtake dangerously
 - Not to drive unless perfect vision
 - Not to violate other traffic rules.
4. People show satisfaction with this activity of college.

Report of World Mental Health Day Webinar on 16th October 2021

Department of Psychology successfully organized a webinar on the occasion of World Mental Health Day on this year's theme of world mental health day "Mental Health In an unequal world" On 16th October 2021.

The webinar was organized under the guidance of the coordinator of Mahatma Gandhi Vidyamandir, Dr. Apoorva Hiray and Trustee of Mahatma Gandhi Vidyamandir and Chairman of College Development Committee Hon. Sampada Hiray.

The speaker of this webinar was Hon. Purva Shinde, Counselor, in her lecture, she guided the the participants on causes of increasing mental health inequality and what measures we can take on our personal level to reduce it. Mental health inequality is caused by caste, religion, economic and social factors. She also said that mental health has been neglected in government policies, thus widening the gap of inequality. Mental health was also neglected during the Corona period. People have information about mental health but they don't understand the importance of it. Mental health is always viewed as an illness. As we clean our hands, it is necessary to clean the mind even if the mind is not visible, for this the confusion, insecurity, anxiety, stress, depression should be removed. All of these factors contribute to the inequality in mental health and to bridge the gap, we need to inculcate the importance of mental health in children from school onwards. We just have to figure out how to overcome it, how to get out of it. One must know oneself, accept oneself, develop the ability to deal with the situations. To keep the mind happy, meditation, reading, listening music, wandering in nature and at the same time introspective mind is very necessary. She also said that mental health should be considered as a quality of wellbeing.

The chief guest of the webinar Prof. Dr. Mrunal Bharadwaj Dean of Humanities and Arts and B.O.S, Mahatma Gandhi Vidyamandir while attending the function, said that mental health should be given the same importance as physical health. If a person has a healthy mind, his body stays healthy. It is very important to take care of the mind. Mental health inequality in society is increasing day by day. We all need to try to reduce it on an individual level. Seek the help of counsellors when needed, do not hesitate to seek help. It is up to you to take care of your mental health.

President of the webinar, Director of Mahatma Gandhi Vidyamandir and Principal of the College Hon. Dr.Ujjwala Deore said in her presidential address, one should check one's mental health as one can check one's own physical health. One should keep one's thoughts good and to keep one's thoughts good one should keep in touch with good people, spend time in the company of nature, meditate. The mind must be able to concentrate. Expressed such an opinion. At the same time, she mentioned the various bad things that are happening in the society and how their mentality is responsible for it and how much they need counselling. The head the department of Psychology Dr. Jaimala Sode, organized the entire program successfully.

चांगले विचारच उत्तम आरोग्याचे गुपित

संमोहनतज्ञ डॉ. गायकवाड; महिला महाविद्यालयात राष्ट्रीय वेबिनार

► मालेगाव । दि. ११ प्रतिनिधी

आपले विचारच आरोग्य योजात असतात, त्यामुळे इच्छा, अपेक्षा आणि विचारांच्या बाबतीत सजग रहा, ठाकून घुसून व अचूक विचार करण्याची सवय योजावा, प्रतिक्रिया म्हणून विचार करणे यशस्वी हेच तुमच्या यशाचे आणि उत्तम आरोग्याचे गुपित असल्याचे विचार प्रख्यात संमोहन तज्ञ व स्तुभदेता डॉ. शैलेंद्र गायकवाड यांनी मांडले.

वेधील श्रीमती पुण्याताई हिरे महिला महाविद्यालयात जागतिक मानसिक आरोग्य दिनाच्या निमित्ताने आयोजित राष्ट्रीय पातळीवरील वेबिनार प्रसंगी व्याख्यान देताना संमोहनतज्ञ डॉ. गायकवाड बोलत होते. ऑनलाईन पध्दतीने वेबिनार आलेल्या या वेबिनारमध्ये देशातील विविध राज्यांतून २५० हून अधिक प्राचार्य, प्राध्यापक सहभागी झाले होते.

यावेळी डॉ. गायकवाड यांनी प्रश्नांचा माध्यमातून सहभागी झालेल्या श्रोत्यांच्या मनात झाकून त्यांना मेंदू, बुद्धी व अंतर्धन याविषयी मार्गदर्शन केले. शारीरिक काळजी घरी घेव घेतली जाते तरीच मनाच्या आरोग्याची काळजी देखील घेणे महत्त्वाचे आहे. नकारात्मक व सकारात्मक भावना या आत्मच्या बुद्धीला दिल्या जाणाऱ्या सूचनांवर अवलंबून असतात, त्यामुळे नेहमी सकारात्मक विचारांना चालना देऊन मनाला प्रसन्न ठेवावे. मनावर येणाऱ्या विविध तणाव व नकारात्मक विचारांमुळे मानसिक आजार होण्याचा संभावना असतात. अज्ञानामुळे नकारात्मक कृतींमधून नकारात्मक भावना निर्माण होतात व अपयश येते. यशाचे व उत्तम आरोग्याचे गुपित हे आपल्या विचारांवर निरंकुश ठेवणे हेच होय व त्यामुळेच एमपीएससीचे परीक्षार्थी यशस्वी होऊ शकतात. तसेच डॉ. शैलेंद्र गायकवाड यांनी विविध उदाहरणे देऊन उत्कृष्ट मार्गदर्शन करत सकारात्मक राहून मनाची स्वच्छता ठेवणे, अपराधीपणाची भावना काढून टाकणे, नव राहणे व संपूर्ण झोप घेणे हे सर्व किती महत्त्वाचे आहे हे उपस्थिताना पटवून दिले.

या कार्यक्रमाची प्रेरणा देण्यास संपदा हिरे यांनी वेबिनारमध्ये मार्गदर्शन केले. वेबिनारचे अध्यक्षीय मनोगत व्यक्त करताना महिला विद्यालयाच्या प्राचार्य डॉ. उज्ज्वला देवेंद्र यांनीबुद्धा मन व बुद्धी यांचे महत्त्व पटवून दिले. उपस्थित डॉ. डी. जी. जाधव यांनी आभार मानले. प्रामाणिक व मूर्खचालन प्रा. जयमाला सोंदे यांनी केले. डॉ. आरती तोंडवे यांनी प्रमुख पाहुण्यांचा परिचय करून दिले.

Mental health and welfare of college students after Covid 19 virus spread

REPORT

The World Health Organization (WHO) has made the assessment that, COVID-19 (Corona Virus) can be characterized as a pandemic & this virus can spread in many countries & territories.

As a moral responsibility of college management especially the Student Welfare Department of the college has trained and encouraged our students to become medical volunteers to prevent and control the spread of Covid 19 virus. Our students went from door to door and talked with the community about how to prevent and control the spread of Covid 19 virus.

As per guidelines of Savitribai Phule Pune University, Pune, Principal Dr. Ujjwala S. Deore had closed the college campus in order to curb the spread of virus. During this time teachers are advised to use an online platform like learning management system, emails, WhatsApp, you tube etc. to avail the literature and assignments to their students.

In this stressful environment, students faced numerous social, mental, physical and educational problems. To overcome all these aspects Principal and vice principal have addressed educational issues and encouraged the students to be at home and utilize the proper time to upgrade their subject knowledge and hobbies like reading, writing, painting, craft etc. They also guided the students to be aware & spread awareness of COVID-19 in the society through electronic media.

Vice Principal Dr. D.G. Jadhav & Prof. D.A. Pawar forwarded important circulars and other related information of UGC, JDHE and University to the students. The volunteers Miss. Pooja Chavan and Miss. Trisha Ghodke of SYB.Sc. made 50 masks and distributed them free of cost to the people. Other volunteers trained the people about the use of sanitizer in avoiding the spread of Covid 19 virus. The Director of Student Welfare Department of our college Smt. Yogita Patil, binded herself to connect with the students and families through online platform like emails, whatsapp, you tube etc. she provided full support to the students to develop their self confidence.

Along with this, our NSS Officer Smt. Dr. D.K. Borse and Assistant Programme Officer Miss. Sheetal Salunke along with NSS volunteers spread awareness of spread of COVID-19. The NSS volunteers communicated with their friends and family members and informed them about prevention and control of Covid-19. Volunteers made digital banners,

All College teachers and administrative staff were directly or indirectly associated with the students through what app and mobile phones.

"ONLINE INTERNATIONAL WEBINAR REPORT ON

"FATE OF MISMANAGEMENT OF OCEAN RESOURCES"

IQAC, Department of Zoology & Botany of Mahilaratna Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon and **BOS Zoology and Botany, MGV's** jointly organized an Online Webinar on "Fate Of Mismanagement of Ocean Resources" on dated 24th August 2021. At 11.30 A.M. on the platform of ZOOM . The main objective to organize this online webinar is to aware each students about the resources of ocean and their importance. For this Webinar **Mr. Duminda Senevirathna** Research Fellow, Department of Aquatic Biosciences, Graduate school of Agriculture and Life Sciences, The University of Tokyo, Japan was invited as a Resource Person.

In the beginning of the webinar Dr. K. S. Thakre in his preface, focused on our college Mahilaratna Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon Camp which is one of the branches of this banyan tree, which was established in June 1990 with the objective of providing quality education and holistic development of our girl students.

The invited Speaker **Mr.Duminda Senevirathna** focused on mismanagement of Ocean Resources. The **Biggest Problems Facing Fish in Our Oceans is Overfishing**. Whether it is for the food industry or the aquarium industry, overfishing is a serious threat to the fish in our sea. Ocean Acidification, Ghost Fishing, Commercial Whaling, Plastic, Irresponsible Fish Farming, Habitat, Destruction, Pollution, Overexploitation of Fishing Resources, Unsustainable Aquaculture and Marine Engineering and Oil Drilling these are the major problems in oceans mismanagement.

He has also highlighted on various issues, the impact of human behavior on the

ocean is vast. We dump everything in our oceans, including plastic bags and other plastic debris, garbage, military munitions and toxic chemicals, crude oil, sewage and nuclear waste. Oil spills from tankers and deep-sea wells leak into our seas, oiling flora, fauna, and our shores with toxic crude.

In addition to overfishing, the mismanagement of the world's fisheries is to blame for the depletion of fish species. There are negative consequences to both wild and farmed fish. He illustrated very useful information regarding *WHAT YOU CAN DO*. Reduce CO2 emissions, Reduce the amount of plastic you use and Stop ocean exploitation. The session was very fruitful and beneficial. All are satisfied.

After that Convener and Principal of this International Webinar Dr. Ujjwala S. Deore guided on how to save the environment in her presidential speech.

Later, Dr.D.G.Jadhav, Vice Principal & Organizing Secretary of the college has also contributed the information about the ocean mismanagement. In his speech, he talked about how we aware about the mismanagement and how we can reduce the uses of fishing, plastic, etc.

Organ Donation Campaign

A Report

On 3rd Sept. 2019 an “Organ Donation Campaign” was organized by our college. In this Programme the President of the function Principal Dr. U.S.Deore guided the students. The lecture was delivered by Smt.NavneetaDesale Head, Zoology Dept. She advised the students to donate their organs like eyes, because it helps the blind people to see the world. After death there is no use of the body organs but if they are donated we can live after death as well. Along with the students, Vice principal, Academic supervisor and all the staff members were present

Output of Organ Donation Camp:

- ❖ Students were made aware about many organs and tissues that can be donated and transplanted. Organ donation has many positive effects on the donor and recipients who experience the greatest benefit.
- ❖ Some farther-reaching effects outside of the donors and recipients are the impact on families and friends who love and support those in need of a transplant. Organ donation can also be a rewarding and positive experience for the family of the donor. It can help a family work through the grieving process and deal with their loss by knowing that their loved one is helping save the lives of others.

Report

A guidance lecture was organized on the topic of "New Technology in Banking Sector" by Mr. Shekhar Bhadane, (Assistant Branch Manager of Central Bank of India, Malegaon Branch), on behalf of the Department of Economics at Smt. Pushpatai Hiray Mahila Mahavidyalaya, Malegaon Camp.

On this occasion, Assistant Branch Manager Shekhar Bhadane gave information about the new technology in the banking sector. He gave information on how to do RTGS and NEFT in different methods of remittance and also on the things required in net banking. While explaining the benefits of information technology in banking, he said that when new technology comes in any field, there is a lot of opposition to it. People have fear or insecurity about it, but instead of insecurity, we must consider the multiple benefits of computerization or information technology. First of all, financial transactions speed up, transactions are smooth and accurate, security is increased, privacy is increased, money, time and efforts of the customer are saved. Also, by increasing the efficiency and profitability of banks, it is possible to establish a sound banking system in the country. Use of modern technology while providing banking services is the need of the hour.

Principal Dr.Ujwala Deore provided valuable guidance and support. Dr.D.A. Pawar in his Presidential speech said that many of our financial transactions are being done smoothly through our mobile phones due to net banking. Therefore, instead of traditional banking, modern banking is an important change for the development of the society.

The programme was compered by Dr. Meena Patil and Introduction to the programme was given by Dr. Rajni Sawant HOD, Department of Economics. Prof. S.B. Patil proposed vote of thanks. On this occasion Prof. Shilpa Yennawar, Dr. Arati Lokhande, (Department of Commerce) and students of Economics and Commerce departments of the college were present in large number.

Environmental Awareness Program as Social Responsibility

Activity Report

Introduction:

Every year, the toxic trail of pollutions and waste results in the premature deaths of millions of people while doing untold damage to the planet. Environmental awareness is an integral part of the healthy atmosphere. Environmentalism is an ideology that evokes the necessity and responsibility of humans to respect, protect and preserve the natural world from its anthropogenic afflictions. Environmental awareness is critical because it can help to minimize pollution and global warming. It can also lead to a more sustainable world by promoting renewable resources such as solar, wind and water.

Objectives:

1. To spread awareness about the hazards of plastic
2. To impart Knowledge about the reduction & reuse of plastic
3. To understand the use of the alternatives of plastic
4. To contribute towards preserving the environment & reduction of plastic pollution
5. To provide information on advantages of organic fertilizers and organic farming techniques
6. To provide information on sustainable agriculture and to motivate the farmers to adopt organic farming
7. To explain the ill effects of chemicals used on to the crops in field
8. To analyze the quality of irrigation water and different soil

The Activity:

By spreading awareness to others that the physical environment is fragile and indispensable, we can begin fixing the issues that threaten it. Making this a goal, the **Department of Chemistry of Smt. Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon Camp** has organized a series of awareness programs on various topics. Total 5 groups of T.Y.B.Sc. students were selected to conduct awareness program under the guidance of Smt. B.V.Shewale and Dr. R. B. Sawant at different villages.

Group I:

Name of the group: Aamhi Nisarg Premi

Name of the activity: Waste and Plastic Pollution

Place where activity is performed: Police line, Malegaon Camp

Date: 02/12/2018

Plastic waste or plastic pollution is the accumulation of plastic objects in the Earth's environment that adversely affects wildlife, wildlife habitat & humans. Plastic waste in our

Oceans & seas is a growing problem, affecting wildlife ecosystems and people. About 10 million tonnes of litter- 80% of it is plastic- finds its way into the water each year. These products take hundreds of years to decompose in the sea. Single use plastics, like carrier bags, drink bottles, coffee cups & packaging are a big part of the issue. Reducing plastic consumption and raising awareness about plastic recycling is crucial if we are to overcome the problem of plastic waste and pollution on our planet.

Group 2:

Name of the group: Aamchi Mati, Amche Manse

Name of the activity: Hazards of Chemical fertilizers

Place where activity is performed: Saundane

Date: 02/12/2018

In order to boost crop quality and satisfy the global demands for food, chemical formulations being introduced as fertilizers and pesticides in appropriate amount are important for food management and resources in agriculture. On the other hand, if used in excessive and disproportionate amount, there are harmful aspects of inorganic fertilizers and pesticides that cannot be ignored. They persist for a long time in the soil and atmosphere and influence various biotic and abiotic factors. They negatively influence soil, microflora, other organisms, human health and the environment. The excessive quantities of agrochemicals, industrial chemicals, trace metals and urban waste enter the soil through atmospheric deposition, disposal of waste, industrial effluents & direct application and pollute it. The adverse effects of these synthetic chemicals on human health & the environment can be reduced or eliminated by adopting new agricultural technological practices, including the use of organic inputs such as manure, bio-fertilizers, bio pesticides, slow-release fertilizers and nano-fertilizers etc and moving away from chemical intensive cultivation.

Group 3:

Name of the group: Chemistry Girls

Name of the activity: Importance of Organic Farming

Place where activity is performed: Pimpalgaon, Dabhadi

Date: 09/12/2018

Organic fertilizers are produced entirely of natural raw materials of plants or animals origin, mostly based on manure or compost. They have multiple advantages:

- Improved airy soil structure
- Healthier soil and more fertile
- Longer period available for crops than chemical fertilizers
- Environment friendly
- Easy to use

Chemical fertilizers and pesticides are expensive to purchase whereas organic manures and pesticides can be prepared by the farmers at home with ingredients that are around them on their farms. Adoption of organic farming techniques reduces the overall costs of farming & can result in more employment in the rural areas.

Group 4:

Name of the group: S.P.H. Girls

Name of the activity: Importance of plastic ban for humanity

Place where activity is performed: Collector patta, Malegaon

Date: 16/12/2018

Plastic bags are everywhere in our environment. They pollute not only our water but also our land. These are made from non-renewable sources & on this account, highly contribute to climate change. Plastic bags are filled with toxic and harmful chemicals such as they have hormone-mimicking qualities. Birds, animals and marine life such as sea turtles and fish often mistake the plastic bags and often mistake the plastic bags and other plastic materials for food and consume them. This causes death due to blockage and suffocation. Plastic is expensive and hard to clean or remove from the environment. Plastic bags contribute significantly to plastic pollution. It is a type of pollution that is wreaking havoc on our ecosystem. To decrease pollution, plastic bags must be prohibited.

Group 5:

Name of the group: Nisarg Group

Name of the activity: Soil and Water Analysis

Place where activity is performed: Jalgaon, Nimbayati

Date: 23/12/2018

The maintenance or enhancement of global soil resources is essential if humanity's need for food, water and energy security is to be met. Soil needs to be managed in a sustainable way. This will be achieved when the supporting, provisioning, regulating and cultural services provided by soil are maintained or enhanced without significantly impairing either the soil functions that enable those services or biodiversity.

Outcomes:

1. Helped people to understand the impacts of plastic pollution on human and ecosystem health and how everyday actions can lessen the problem.
2. Activity drew attention to the harmful effects of plastic in our environment- harming marine and human health, littering beaches and landscape, clogging waste water streams and landfills- and empowered people to make a difference.
3. Farmers were guided to move on organic farming and informed the benefits of the same.
4. Soil and water analysis helped to optimize crop production and to aid in the diagnosis of plant culture problems.
5. Above mentioned programs created awareness among farmers regarding environment friendly lifestyle.

Organ Donation Programme Report

Date: 05/09/2017

Shrimati Pushptai Hiray Arts, Science and Commerce Mahila Mahavidyalaya organized an organ donation awareness program on 29th and 30th August 2017 under the Maha Avayadan Abhiyan. On 29 Aug.2017 Dr. Ujjwala Deore, Principal of our college, while explaining the importance of organ donation , said that she is going to donate her organs on the principle that 'Charity begins at home'. No campaign can be successful without actual participation, so every person must participate in the campaign. She further said that after death, one can be useful in the lives of six people, so everyone should think about organ donation from a positive point of view.

On 30th August 2017 Dr. Dilip Bhavsar, Director of Malegaon Blood Bank gave an insightful lecture.He stressed up on the thought that everyone should think about organ donation from a practical and scientific point of view by getting rid of old outdated ideas. How long can an organ be used after death?

In his lecture very scientifically he answered, the questions asked by the students. Student Development Board Officer Professor Yogita Patil introduced the programme and said that in modern times, organ donation can be an ideal social behavior. The Student Development Board as well as the students, Professors and non-teaching staff of the National Service Scheme Department took an oath of contribution on this occasion. Both these programmes were compered by Dr. Rajshree Sawant. Dr. Ramesh Nikam proposed a vote of thanks.
