**Objectives of the Visit:**

- 1) The main objective of an industrial visit is to provide the students an insight regarding internal working of companies.
- 2) To get the students theoretical knowledge of business as well as practical knowledge of its function.
- 3) The objective behind the visit was to make students aware about various activities related to sugar processing techniques.

This factory was established in the year 1996 as M.B. Sugars and Pharm.Limited. They are engaged in manufacturing and exporting pharma grade Sucrose, MCC and Sugar Spheres / Globules, Mannital Powder in pharma products and Sugar Sachets, Cubes, brown sugar, sugar substitute and specially sugar for food. After visiting the industry students got knowledge about different analytical techniques used in sugar industry and manufacturing process.

Students visited the quality control department which includes-

**A] Instrumental Lab:** In instrumental lab UV spectrometer is used for qualitative and quantitative analysis. The Polarimeter determines sucrose percentage in products. FTIR used for determination of functional group of particular compounds. Most important instrument is HPLC which controls the purity of the product, thus includes separation and purification of product.

**B] Chemical Laboratory:** In chemical laboratory students learned about lab safety methods. Students also learned how to prepare various solutions / reagents. Participating students learned how chemical laboratory determined purification and qualitative analysis of products by various methods. Students observed small storage room which keeps raw material temporarily safe, how desired samples are stored in a specific way to prevent contamination and evaporation of the product sample.

**“ONLINE WEBINAR ON “CAREER OPPORTUNITIES IN DIGITAL  
MARKETING”**

IQAC, Department of Commerce of Mahilaratna Pushpatai Hiray Arts, Science and Commerce Mahila Mahavidyalaya, Malegaon and India First Robotics Innovation & Research LLP, Pune jointly organized an Online Webinar on “Career Opportunities in Digital Marketing” on 23 August 2021. More than 100 participants attended the webinar. The main objective to organize this online webinar was to satisfy every student’s need to acquire entrepreneur skills and behavior to navigate through their future. Mr.Vinay Kunwar, Director of India First Robotics Innovation & research LLP, Pune was the Resource Person.

Mr. Vinay Kunwar focused on scope of Digital marketing as a career for economic survival. As innovation and technological advancements continue to replace basic, entry-level employment opportunities the digital marketing as a whole will benefit from the development of entrepreneurial skills in youth to address such critical issues. While developing careers should have special skill of learning digital resources, scope of digital marketing, communication and collaboration and career readiness develops around self -reflection, assessment, development plan, road map and action or skill improvement.

Convener and Principal of this Online Webinar Dr. Ujjwala S. Deore guided us through her Presidential speech and she about our college Mahilaratna Pushpatai Hiray Arts, Science and Commerce Women's College, Malegaon Camp she remarked it is like one branch of a banyan tree which was established in June 1990 with the objective of providing quality education and holistic development of our girl students. In her speech she said, “Students must learn how to incorporate innovation, digital marketing and learn to add startup practices into their skills portfolio to compete in a constantly changing workforce”. It is increasingly important for youths to acquire entrepreneurial

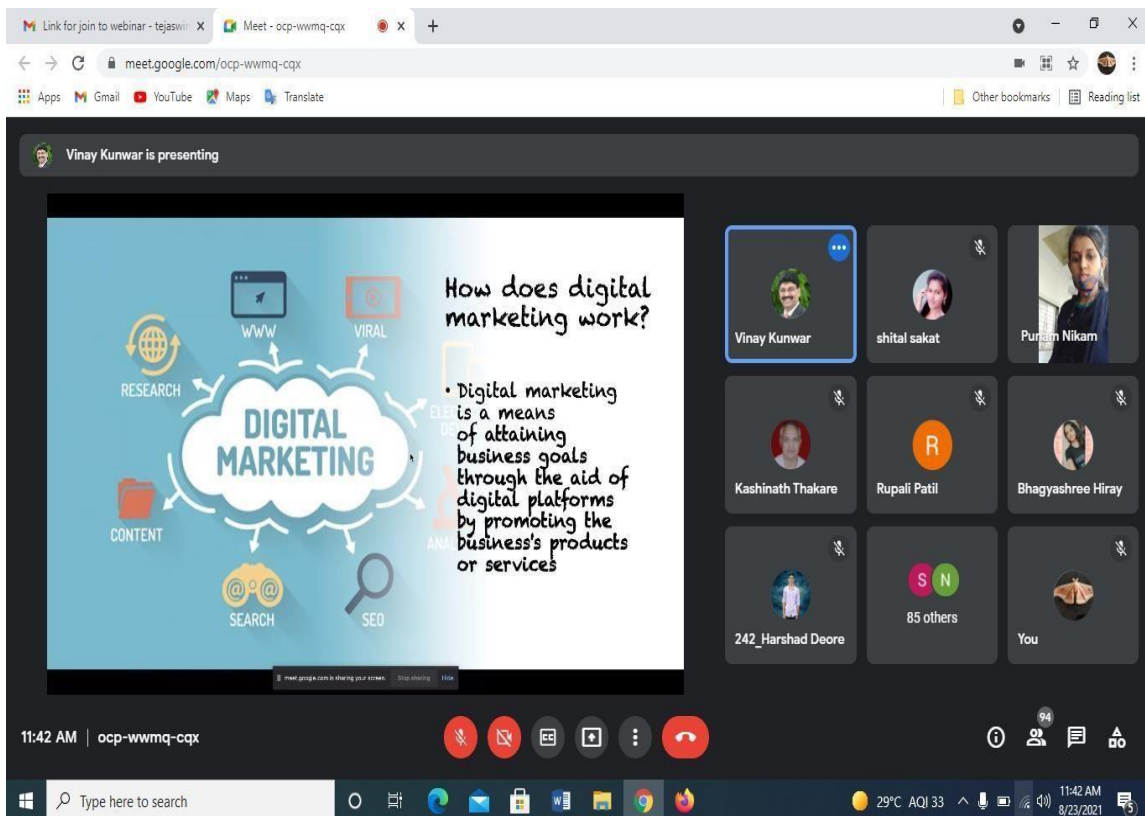

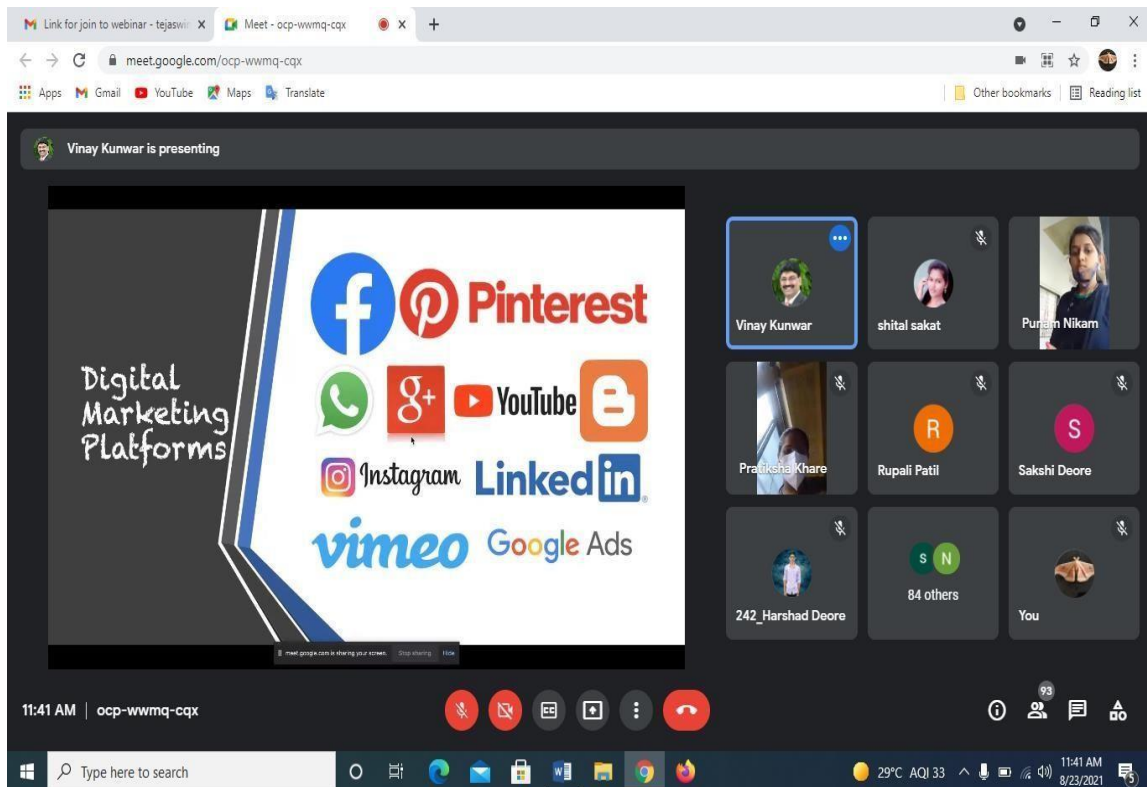

skills to address both the needs of business startups and the employment gap through digital learning.
