### Report on Covid Vaccine during Menstruation period

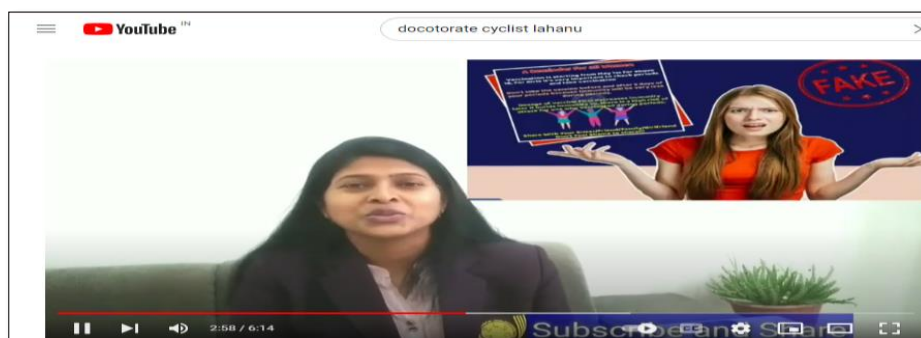

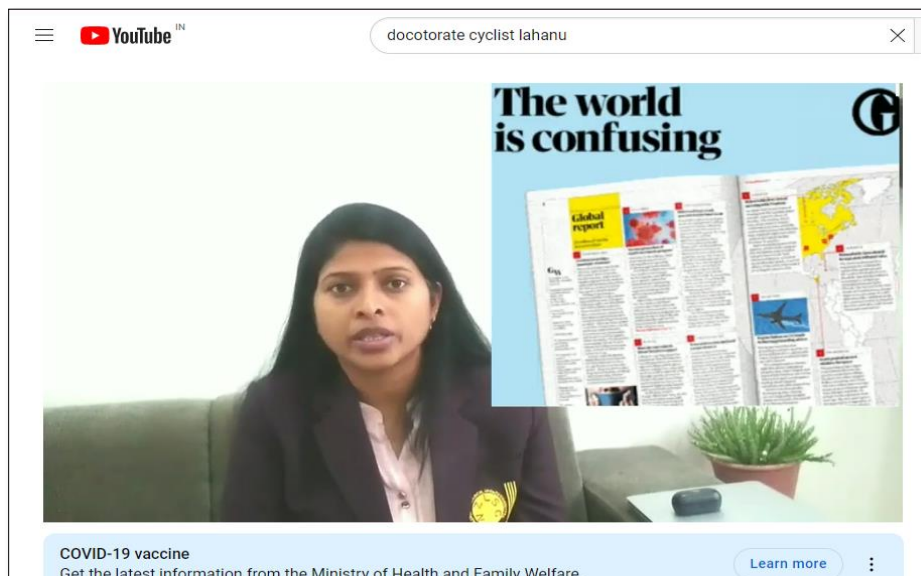

You tube Channel Link:<https://youtube.com/@doctorecyclistlahanu7893>

Video link: <https://youtu.be/IMH9fudbhZI>

While coronavirus vaccines play an important role in containing the spread of the virus, it has also brought along many myths and rumors that were rapidly circulated on different social media platforms. This had especially impacted women and made them more anxious and confused about whether or not it is safe to get their Covid Vaccine shots during their periods.

I discussed with the issue with Family Friend Dr. Pankaj Deore MBBS Gynecology Senior Consultant, Obstetrics and Gynecology, Deola, Nashik, Dr. Devendra Chavan MD Ped, also various discussion with various doctors' team.

After undergone studies I took my vaccine shot in my monthly cycle for I would take experience than can I shared with students in video. I worked at Mahila Mahavidyalaya, so at this situation all admitted students were under fear for government rule of compulsory covid vaccination. That's way I made video for guidance purpose for students. Many studies suggest that You can schedule vaccination at your convenience and Vaccines do not affect your menstrual cycle.

College arranged the vaccination camp during that period students couldn't support and trust on vaccine due to fake rumors. So we counselling them through phone campus also to take vaccine. The present video was made during the period of covid -19 and uploaded on you tube. Apart from the students and professors of the college, common masses have also benefited from it.
